

OHIO STONEWARE

AMERICAN MADE IN  ZANESVILLE, OHIO

Crocks are certainly multi functional, from the traditional use of preserving vegetables such as cucumbers for pickles and cabbage for sauerkraut, or for everyday use as pantry or kitchen containers. Crocks filled with food can be kept in a cool, dry environment allowing the vegetables inside to ferment naturally and since our crocks are made with lead free glazes, they are food safe and easy to clean. They are also conventional oven, microwave, and dishwasher safe.

[New]

Fermentation Crock

One of the oldest, easiest and healthiest ways to preserve food. Natural lactic acid fermentation allows vegetables to retain more vitamins and minerals than other methods.

- Designed for making bountiful batches of sauerkraut, pickles or preserving other foods.
- The lead free, food-safe glaze will not retain the food's flavors and makes clean up easy.
- The two semi-circular stone weights rest on top of the food inside the crock and create pressure needed for proper fermentation.

- 2G 3 Gallon Fermentation Crock #11709**

Kitchen Naturals Bakeware

It's not a prideful boast. It's a solemn promise from all of us at Ohio Stoneware. Every piece of Ohio Stoneware **Is** and **Always** will be Made in America by down to earth, hard working folks like their forefathers who, took great pride in their craft. You can be assured that every product we place into the marketplace will have our Ohio Stoneware stamp of approval on it and will be **Made in America**.

Opened in 2005, in Zanesville, Ohio, Ohio Stoneware is one of America's last remaining commercial pottery manufacturers, operating in the heart of what used to be the Pottery Capital of the World. From humble beginnings, when the product line was just ten items to a product line today that numbers well over 100 hundred items. We are a family owned business and we stand behind every product that we sell, whether it be garden products, bird baths, canning and fermentation crocks, kitchenware, bakeware or pet feeders. Our pieces are fired at approximately 2,200 degrees and the kiln cycle (to heat and cool) takes about 18 hours. Our glazes are second to none and will withstand the rigors of use for many, many years.

If you are currently a customer, we sure appreciate your business and support. If you are not purchasing from us, we sincerely welcome the opportunity to begin a mutually beneficial relationship. We will do whatever is necessary to garner your satisfaction and we invite you to become a part of the Ohio Stoneware family.
